RE: Sargent Lake Dam, Belmont - LETTER OF DEFICIENCY

Dear Sir/Madame:

On March 21, 1996, the Department of Environmental Services (DES) conducted an inspection of the subject dam. This inspection was conducted in accordance with RSA 482:12 and Env-Wr 502.02. During the inspection the following deficiency was observed:

- 1 Trees growing on the embankment.

DES believes that the above deficiency can be corrected by:

- 1 Removing the trees from all areas of the embankment which includes a distance of 10 feet to the toe of the slope of the embankment.

The DES is requesting that you submit a schedule for our review and approval within 14 calendar days that will provide for completion of the identified repair by August 1, 1996. If we do not receive a schedule, we will consider issuing an Administrative Order requiring the deficiencies to be corrected.

We believe that the noted deficiencies warrant attention to ensure the continuing safe operation of your dam. We are available to assist you in any way that we can to correct the deficiencies promptly and effectively.

If you have any questions regarding this Letter of Deficiency you may contact Gary L. Kerr at 271-3406. Our normal business hours are from 8:00 a.m. to 4:00 p.m., Monday through Friday. Please forward all correspondence to the Water Resources Division address listed on the previous page.

Sincerely

COPY
